

## SK-VC01 Shoulder Support Rig Mini Assembly Instruction

Sevenoak SK-VC01 is a highly compact and light-weight aluminum shoulder support rig specifically used for small DV, 4/3 cameras and small DSLRs. The SK-VC01 increases the stability while recording and its light-weight design frees you from fatigue even after long shooting periods. The soft foam pad fits comfortably on your shoulder, and the handle bar can be used as a stand-alone support for your camera.

### Features:

- Longer curve part
- Soft foam handle bar can be used alone

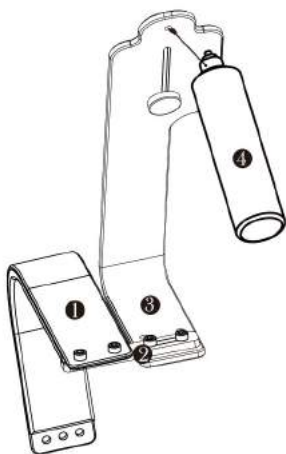

1. Install components 1,2,5

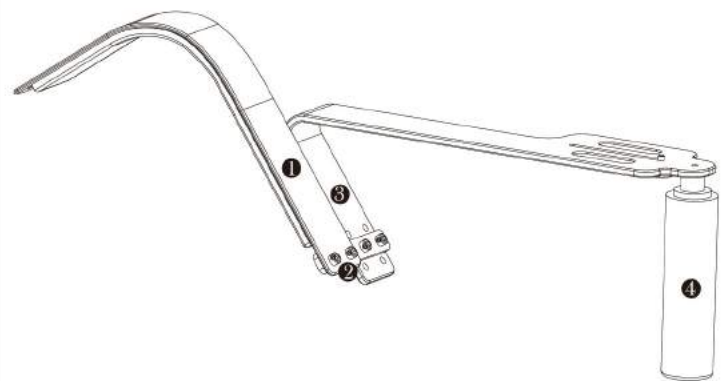

2. Install components 1,2,3,5

3. Install components 1,2,3,4
